

PRACTI-RAS

Practical training for aquaculture educators in Recirculating Aquaculture Systems

Training Opportunity in Aquaculture

Registration Deadline
1st JUNE 2023

There are increasing opportunities for employment in the high-tech recirculating aquaculture (RAS) industry, but production in RAS requires unique skills.

PRACTI-RAS is an Erasmus+ VET initiative aiming to meet the rapidly changing needs of the aquaculture industry through upskilling current and future fish farmers.

PRACTI-RAS is designed for aquaculture professionals and students from Norway and Malta interested in the changing face of land-based RAS production.

This course is delivered by industry professionals working daily in RAS design, engineering and operations.

Join PRACTI-RAS in 2023 to advance your training and explore new career options

ABOUT YOU: Previous experience or education in biological, environmental, marine, or agricultural sciences, engineering, or digital industries. Experience or interest in Aquaculture.

COURSE INCLUDES:

8 hours of self-paced online learning modules with tutor support. (Feb-May 2023)

5 day practical training at AquaBioTech Group, Mosta, Malta (1 week October 2023)

Networking with RAS professionals

COST: In 2023 this course is FREE for participants living in Malta.

HOW TO JOIN: To register, please send an email outlining your interest in the course and relevant past experience to acl@aquabt.com before midnight on 1st June 2023
